# PREMIUM AMERICANUS LOBSTER PRODUCTS

The North Atlantic Ocean's cold and clear waters are renowned for yielding the finest quality Lobsters, specifically the *Homarus Americanus* species. These Lobsters are characterized by their white and firm flesh, while their meat stands out with its delightful sweetness. Lobsters are typically harvested using traps or pots, which are baited and submerged to attract and capture these prized crustaceans. It's important to note that lobsters are highly valued in the seafood industry, and fishing regulations, such as size restrictions and catch limits, are in place to ensure sustainability and the protection of lobster populations.

## FISHING SEASONS

- Spring
- Autumn

## CATCHING ZONES

- North Atlantic Ocean
- Fishing zone: FAO 21

## CATCHING METHOD

- Pots and traps

## STORING TEMPERATURE

- -18 °C or lower

Lobster can be caught all year, but the Shell and the sizes differ from one season to another. In winter Lobster has a harder shell and larger Tail. During Fall and Spring, the Shell tends to be softer.

## PRODUCT OVERVIEW

# LOBSTER *(Homarus Americanus)*

### Frozen Cooked Lobster Tails Meat

Country of origin: Canada  
Shelf Life: 24 months

We supply following sizes/packaging:  
12 x 1lb (454g)
